

High-Level Strategy

Version 20250122-002

Please note: this high-level strategy is meant to be a starting point for you to develop your own personal, family and business strategy, and not a “one size fits all” approach.

Introduction

We created this **High-Level Strategy** blueprint in order to answer the most common questions we receive from our members and community, namely:

“How do I get started in achieving financial sovereignty?”

“What do I work on first/next?”

It is our hope and desire that this free resource helps clarify these and other questions for you.

Feel free to [send us specific feedback](#) when relevant to your case.

Principal Objectives

Most members join our private community and memberships because of their desire to realize these specific goals, or similar goals:

1. Move to being **private**, and operating in the private. Create a documented and publicly noticed separation between yourself, the living man or woman, and your STRAWMAN. [Correct your status](#) and gain control of the use of the public person (aka Ens Legis, or DEBTOR)
2. Operate in commerce privately through [irrevocable business trusts](#) and/or PMAs. Protect assets from the public (lawsuits, taxes, etc) using private irrevocable foreign or family trusts.
3. Discharge debts with authorization from the bank or financial instruments to tender negotiable instruments through your businesses and/or trusts, based on your corrected status and perfected security interest in the DEBTOR.
4. Unlock your life's purpose. Achieve your big vision, and the important projects you desire to realize.
5. Be left alone - non-controversial, non-combative.

Specific Steps

1. Always begin with the end in mind. Have a strategic plan. Write down your specific goals and objectives. Capture known tasks using a project plan. We recommend [ClickUp](#), as it's free to start.
2. Stop relying on legal remedies for income or to resolve financial emergencies, or on magic bullets that will allow you to "access your credits" with no effort and no value offered in exchange. Instead, focus on securing one or more streams of income through your business endeavors and/or employment.
3. Stop using the Social Security Number (or equivalent) in commerce
 - 3.1. Open new accounts using a private business trust or LLC/Corp EIN that you control through trusteeship.
 - 3.2. Begin building business credit with the EINs associated with your private entities.

- 3.3. You may need to use Equity or the administrative process to “tie up loose ends” and discharge any existing debts
4. Correct your status and establish your UCC Contract Trust (“Secured-Party/Creditor” or “SP/C”)
 - 4.1. This one-time process sets you up for a lifetime of success
 - 4.2. Your standing will be recognized by the public, and you will be treated differently as a result.
5. Establish the irrevocable trusts and private member associations required to protect your assets and operate privately in commerce.
 - 5.1. Business Trusts
 - 5.2. Family Trusts
 - 5.3. Foreign Trusts
 - 5.4. When applicable, set up LLCs/Corps to be managed by the trusts.
6. Start building your team, tribe and community
 - 6.1. Leverage “virtual assistants” to get stuff done for a minimal labor cost
 - 6.2. Leverage “international attorneys” to help you review documents
 - 6.3. Leverage trustees to help co-manage your private affairs
7. Obtain authorization from a bank or financial broker to tender negotiable instruments through your private business trusts or LLCs to set off your business debts.
